

## FINAL LIST OF ECONOMIC INDICATORS

Table 1a. Final List of economic indicators calculated based on FADN RS data

Indicators of economic sustainability	FADN data	Indicator description
Technical Efficiency	SE131; SE436; SE025; SE010; SE275	Output – input relation. On the output side is total output value; on the input side: total assets value, total utilized agricultural area, total labour input, total intermediate consumption.
Total Factor Productivity	SE135; SE206; SE256; SE436; SE025; SE010	Output – input relation. On the output side is aggregated value that contains total output crops and crop production, total output livestock and livestock production and other output; on the input side: total assets value, total utilized agricultural area, total labour input.
Opportunity Cost Approach	SE420; SE016; SE021; SE501; SE447; SE025; SE030	Farm net income divided by reference income. The reference income is the sum of opportunity costs of own factors of production (labour, capital and land).
